streptokinase - Streptococcus sp.

C; Species: Streptococcus sp.
C; Date: 01-Aug-1995 #sequence_revision 01-Sep-1995 #text_change
C; Accession: S53334
R; Shi, G:Y:; Chang, B:I:; Chen, S:M:; Wu, D:H:; Wu, H:L.
Biochem. J: 304, 235-241, 1994
A; Title: Function of streptokinase fragments in plasminogen act
A; Reference number: S53334
A; Status: preliminary
A; Molecule type: protein
A; Residues: 1-197 <SHI>
A; Cross-references: UNIPROT:Q7M115; UNIPARC:UPI000017AC2C
                                                                                                                                                   RESULT

streptokinase A (EC 3.4...-) (allele 7) - Streptococcus pyogenes (fragment)
C;Species: Streptococcus pyogenes
C;Date: 24-Jul-1998 #sequence_revision 24-Jul-1998 #text_change 09-Jul-2004
C;Accession: S77676
C;Accession: S77676
R;Kapur, V.; Kanjilal, S.; Hamrick, M.R.; Li, L.L.; Whittam, T.S.; Sawyer, S.A.; Musser, Mol. Microbiol. 16, 509-519, 1995
A,Title: Molecular population genetic analysis of the streptokinase gene of Streptococcu A;Reference number: S77671; MUID:96037795; PMID:7565111
A;Accession: S77676
A;Status: translation not shown

Nucleic Acids Res. 17:1262-1262(1989).

Plasminogen by complexing with it. As a potential virulence factor, it is thought to prevent the formation of effective barriers around the site of infection, thereby contributing invasiveness of the cells.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          NUCLEOTIDE SEQUENCE [GENOMIC DNA]
